								6.7
								6.4

## GENERAL COMMENTS

Please enter any additional comments in the space below. Information can be provided regarding the provision of information from legacy systems, further context for the unavailability of data, etc.

PI 4, 5, and 10 will not be reported, as we have not been on CPIN for two (2) full fiscal years. Next year, we will be able to report the required Performance Indicators.

It has become evident that when ONLAC/AAR training is not provided in one fiscal year, the rating for quality of the Caregiver-Youth relationship for children in care tends to decrease. The trend is that when training is provided, the rating for the quality of the Caregiver-Youth relationship for children in care increases considerably.
